ABOUT EXPEEDER

Expeeder was established with group of senior logistics professionals with vision of progress in end to end logistics solutions for global and local customers in Pakistan and emerging markets.

On yearly basis company is growing both in terms of market share and revenue; backed by highly skilled staff and professional leadership, company has proved reliable performance for global partners and customers. Now company has well established strong presence in Pakistan based on our commitment to provide premium shipping services.

In 2018 and onwards, Expeeder Logistics (Pvt.) Limited has further plans to expand and continuously investing in people, technology, global network and collaboration with reliable partners having ability to adopt rapidly changing modern logistics environment. We consider ourselves as highly competitive service provider within the local shipping industry with wide range of product offering and flexibility.

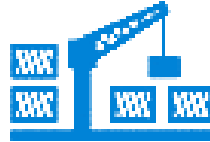

EXPEEDER PRODUCTS AND SERVICES

Ocean Freight Export

As one of the leading forwarders and transportation service providers in Indian-Sub Continent, Expeeder can help customers to choose the most reliable and cost-saving sailing routes from Pakistan to any destination worldwide. We have established long-term partnership with major shipping lines to provide cost-efficient and reliable services to fulfill the demanding needs of our customers.

Our professional and experienced staff prioritize our customers' expectations and ensures all necessary documentation are completed, and related procedures are followed to deliver the cargo as committed.

Ocean Freight Import

Maintaining well-balanced inventories are very important for manufacturers, distributors and retailers to control stocks and be cost-effective. An efficient and reliable import handling program offered to our customers with great contribution in inventory controls.

Standby nominations through managed worldwide suppliers is our key performance for our customers and complete SOP is followed to make the difference in regular import handlings.

We can also provide long-term and temporary storage and local delivery and distribution services as value addition to total control of import services which saves lead time, cost and inventory to improve productivity.

Air Freight Export and Import

Whether there is a need for consolidation or direct air service, our airfreight professionals are ready to deliver your cargo to and from almost any point of the world. Due to an ever-increasing demand for shorter transit times, we utilize premium carriers with established routes for our consolidations. Many different options are available for the most competitive and reliable airfreight forwarding service.

Our all partners have established airfreight divisions with skilled staff which is key of our yearly growth in this segment.

Multimodal Service

Being our customers' transportation consultant, we always provide the most cost effective solutions to meet the deadlines of cargo delivery. We have developed multimodal transport solutions, including sea/air, air/sea, with hub management or combination of rail/road transportation as well, to meet the balance between cost and time sensitive deliveries.

EXPEEDER PRODUCTS AND SERVICES

Land Transportation

Local land transportation is also very integral part of overall logistics. To supplement door-to-door services, we have all necessary resources, including fleet along with experienced staff to manage all kind of cargo delivery and pickup.

Customs House Brokerage

We handle large amount of daily files for inbound and outbound customs clearance. We have compliant CHB process which is handled by most experienced staff with updated information of new rules and regulations according to law of land. We benefit our customers for timely executions of customs formality with integrated systems and technology.

Transshipment & Direct Services

We have comprehensive and reliable services for cargo transshipped from Pakistan to destinations worldwide as well as imports from other countries to Pakistan

Our qualified professionals can develop a tailor-made logistic program locally to meet any requirement of complex movement through hub management and proper solution for documentation and control over the cargo.

Warehousing & Distribution

We offer cost-effective regional and local warehousing and distribution services. Through our professional associated partners our customers can have complete consolidation including pick and pack or any value addition services at origin or hubs. Our distribution centers offer inventory control through latest WMS integration and multi user facilities.

Cargo Insurance

Marine Insurance offerings are available with multiple options. We have secure relationships with insurance companies, underwriters, relevant brokers and surveyors which provide legal contractual agreements as per customers' requirements to have complete peace of mind.

Export Packing & Crating

We always makes sure that every consignment arrives at destination in same condition as received. Our expert packing abilities are the best in the business and our customers can be confident that their consignments will be treated with the highest regard for the safety of the contents. This security is another important aspect of Expeeder's partnership with all customers.
